Subject: call for 8 PhD positions in Computer Science at Gran Sasso Science Institute (GSSI) - L'Aquila - Italy

To: <[catia.trubiani@gssi.it](mailto:catia.trubiani@gssi.it)>

\*Please forward to anyone who may be interested\*

-----  
The GSSI - Gran Sasso Science Institute offers eight, four-year PhD fellowships in Computer Science for the academic year 2021/22. The fellowships include a yearly salary of € 16,159.91 gross, free accommodation at the GSSI facilities and use of the canteen. The official language for all PhD courses is English.

Applications must be submitted through the online form available at

<https://applications.gssi.it/phd/> by \*14 June 2021 at 5 pm (Italian time zone)\*

-----

\*Computer Science at the GSSI and its PhD programme\*

The Computer Science group at the GSSI carries out high-quality, interdisciplinary research on algorithms, formal methods, and software analysis and development. Further information on the group, its members, activities, current research projects, guests, wide international network and vibrant research environment can be found at <https://cs.gssi.it>.

The PhD program in Computer Science at the GSSI (see <https://sites.google.com/gssi.it/csgssi/ph-d-program>) fosters theoretical and applied research on the above-mentioned fields, and equips young researchers with the knowledge and skills to successfully tackle the future challenges in the digital era.

\*About the Gran Sasso Science Institute\*

The GSSI-Gran Sasso Science Institute (<https://www.gssi.it/>) is an international PhD school and a centre for research and higher education in the areas of Computer Science, Mathematics, Physics and Social Sciences. The GSSI was founded in 2012 in L'Aquila (Italy) as Centre for Advanced Studies of the National Institute for Nuclear Physics (INFN) and was then established in March 2016 as a School of Advanced Studies providing post-graduate education.
